CASSILH
HAUS

ABOUT **NEW BLOOD**

The Cassilhaus Collection continues to grow and evolve in a very organic way as we meet and experience new art and artists along our path. *New Blood* looks at new work that has entered the collection in roughly the past 5 years since our last new acquisition survey exhibition, *Glimpse*, in 2013. More than 70 works by 60+ artists are represented with nearly 40 of the artists completely new to the collection. A special section of the exhibition includes a group of photographers from the prestigious Magnum Photo Agency. Although primarily photo-based artwork, work in 10 different media are represented including cast bronze, wood block prints, stoneware, photogravure, lithography, prisma color and ballpoint drawing, and steel reinforced earthcast concrete.
